Sort button/Refine button not obvious  One person didn't know what to do with the main page, another was not sure how to search.  Sort function was confusing  This was partly because the fields used for sorting weren't really appropriate for the database. I've changed them from "title", "date", and "author" to just "title" and "document type". I think this does make more sense. (Not many of these resources have dates or obvious authors!)  This is similar to #3 above, where "date" is not the best choice for this database. I've changed this to offer the option to limit by document type (web resource or resource review — I left lesson plan out, since we don't have any yet)  Add a link to get the Acrobat Reader plug-in  Add a link to get the Acrobat Reader plug-in  Little boxes for marking records not clear [frequent suggestion]  Title / Description tabs unclear.  Ferdiag in and is a prominent link off the database page? Explain what it is, make adding resources a central thing?  Need a "home" button  A Eicon does this. Write "HOME" underneath??  Hard to get back after visit external site.  Ve hange to "open in new window"  We have 2 "browses". Rename	Changes made already:	1

Other changes to consider (not	
made yet):	
Provide a shockwave (or some kind of)	We should be pretty happy with our
"guided tour" – FREQUENT	interface before we put the time into
SUGGESTION!	creating this, since it will have
3332311311.	screen-shots.
"Jump" link (to get to next set of records)	The person suggests a "Next"
not clear -	button. The existing method allows
1101 01001	you to jump by groups of 10, which
	I think is useful.
"kw" not clear -	This shows up when you refine a
	search. It's the background search
	structure and I'm not sure I can
	change the way it displays!
One person was confused by the	I don't know if we should look at
Advanced Search option, another person	this for possible changes.
liked it.	
"Help" did not work in Netscape -	It works for me, so I'm not sure
	about this,
Marking records takes too long -	This is a function of the software
	and I don't think I can change it.
Add description to site to main page	This should be taken care of when
[frequent suggestion]	we have a live web front-end (done
D. C. Lander Communication of the Communication of	by Brandon, Blake,,, Bob?
Put description on first page [brief results]	Should we make the "brief results"
	more complete? So people don't
Colore are cold	generally need to go to full result?
Colors are cold	other people like them
Main page boring	others think it's clear and
Main nage toyt began, difficult if not a	uncluttered.
Main page text-heavy – difficult if not a	others say keep low graphics!
good reader. Need more icons and	
graphics "Very difficult because can't use key words	This guy couldn't find the keyword
to search"	search option, obviously
Need more detail in the instructions	Scaron option, obviously
[Nav Bar] choices need more detail	we just deleted the detail! (I think
individual onoices need more detail	they actually want more records in
	the DB)
Some text colors difficult to differentiate	
People didn't understand what "brief
